OBJECTIVE

Dedicated 4th year Biomedical Engineering student from Jashore University of Science and Technology(JUST) with hands on experience in biosensor device development and two peer-reviewed publications. Seeking a graduate research opportunity to build upon my skills in wearable biosensors and lab-on-chip platforms, with a focus on low-cost, accessible diagnostic technologies for resource-limited settings.

EDUCATION

Bachelor of Science in Biomedical Engineering
Jashore University of Science and Technology (JUST), Bangladesh
Expected Graduation: June 2026 | CGPA: 3.1/4.0 (7 completed semesters out of 8)

Relevant Coursework: Human Assist Devices, Biomedical Instrumentation and Measurements, Bioinformatics, Digital Signal Processing, Biomaterials and Prosthetics, Engineering Mechanics, Basic Electronic Devices and Circuits, Engineering Physics

RESEARCH & PUBLICATION

Publications:

- "A portable smartphone-based electrochemical sensing platform for rapid and sensitive detection of creatinine in blood serum" - RSC Advances, 2025
  DOI: https://doi.org/10.1039/D5RA03128A

- "Enhanced electrochemical sensing of L-cysteine in human blood serum using a $Ti_3C_2T_x$/carbon black nanocomposite hybrid structure"- Microchemical Journal, 2026
  DOI: https://doi.org/10.1016/j.microc.2026.116817

CONFERENCES

Participated in:

- 23rd Science Council of Asia Conference (SCAC)
  Theme: Fourth Industrial Revolution and Future Society
  Held on 30 November – 2 December 2024, Dhaka, Bangladesh

- International Biotechnology Conference 2025
  Theme: Harnessing Sustainable Environment, Agriculture and Health
  Held on 20–21 June 2025, BRAC University, Dhaka, Bangladesh

RESEARCH AFFILIATION

Research Student, Laboratory of Nano-bio and Advanced Materials Engineering (NAME)
Jashore University of Science and Technology (2023-Present)
- Conducting research on advanced biosensor technologies
- Supervised by Dr. Md. Zaved Hossain Khan

PROJECTS

HealthTracker: Machine Learning-Enabled Dual Sensor Platform (2024)

- Developed comprehensive monitoring system for diabetic care.
- Integrated dual sensors for real-time glucose and ECG monitoring.

Hospital Finder: AI-Based Emergency Healthcare Assistant (MVP)(2026)

- Developed AI system using Groq API and RAG for hospital search and first-aid guidance
- Implemented location-aware recommendations and personalized health data storage

LABORATORY & TECHNICAL SKILLS

- **Biosensing & Electrochemistry:** Electrode modifications, data collections, Real sample analysis
- **Spectroscopy:** FTIR, ATR
- **Molecular Biology Techniques:** PCR, RT-PCR, Agarose Gel Electrophoresis
- **Programming: C,** Python
- **Scientific Communication:** Academic writing, paper publication

LEADERSHIP & EXTRACURRI-CULAR ACTIVITIES

Leadership Positions:

- General Secretary, JUST Robo Society (2024-2025)
  Jashore University of Science and Technology
- Secretary of Corporate and Public Relations, JUST Research Society (2024-Present)
  Jashore University of Science and Technology

Community Service:

- Regular Blood Donor
